

Security

The Pima County Sheriff Department is the primary security force for the Pima County Fair. In addition, private security is scheduled for concerts and other special activities during the Pima County Fair. The Security Office serves as a headquarters for the deputies as well as a processing and detainment area.

Lost children as well as personal lost and found items can be reported or claimed at the Fair Guest Services Office, located near the Main Gate. Guest Services can be a helpful liason to the Security Office

To report a lost child, parents can visit either the Pima County Fair Guest Services Office or the Security Office, located in the same building as guest services.
